

## BRAKE METAL

API's in-house Fabrication Division eliminates the lead-time involved in obtaining different products from multiple vendors, truly making API the One-Stop-Shop for Brake Metal materials.

## AVAILABLE OPTIONS

API offers custom bent metal to meet all of your specifications. Applications include column covers, store displays, grille enclosures, cladding, wall panels and just about anything else you can think of. Anodizing, powder coating, and wet spraying can be applied to any brake metal application. Refer to our color charts or send us a control sample color for custom matching.

Simply provide us with a detailed drawing of your application, and we will provide you with a written quotation.

At API, we want to help you maximize profits while keeping your costs down! With quick turn-around, competitive pricing and quality workmanship, we are your partner!

- Column Covers
- Entry Vestibules
- Round Column Covers
- Wall Panels
- Cladded Doors
- Storefront Re-Clads
- And Much More!

**EQUIPMENT**

Our AccurShear™ model 613512 Shear is rated to shear structural quality steel with typical mechanical properties up to 80,000 tensile and 44,000 yield strengths.

Our Accurpress™ model 713014 Pressbrake has many features that ensure precision every time

- 130 ton / 14 foot maximum sheet size
- 1/4" steel capacity
- Capable of handling 60"x 144" metal sheets means less seams for large products.
